OFFICIAL AGM 2014 EVENT BROCHURE

**XL**P

**AGM 2014 @ BUDAPEST**

**SEPTEMBER 21ST - 23RD, 2014 • CORINTHIA HOTEL**

# Welcome to AGM 2014

We are pleased to announce that the 2014 XLProjects Annual General Meeting will be held at the Corinthia Hotel in Budapest, Hungary this September!

We can never begin to express enough how important the AGM's are to the overall networking process. Networks are always evolving and changing and XLProjects in particular is still a relatively new group. This will be the 2nd XLP AGM and is therefore a significant milestone for the group. There will be plenty of new faces at the event and this is an important opportunity to showcase your company and solidify your commitment to the group. For those of you who have not yet attended an event, it is even more important as this is your first chance to really put a face to the name and show the personality behind your brand!

Please make sure you register your attendance as soon as possible. That way your partners will know to expect you there and you can begin planning your meetings with other members and decide what markets/companies would be of the most relevance to your long term plans.

We look forward to seeing you all in Budapest!

**Gary Dale Cearley**  
XLProjects Executive Director

# About Budapest

More cosmopolitan than Prague, more romantic than Warsaw and more beautiful than both, Budapest straddles a gentle curve in the Danube, with the Buda Hills to the west and what is essentially the start of the Great Plain to the east.

Budapest is unique in Hungary. No other city is as beautiful, as rich, as well endowed in fine art and architecture or, frankly, as crowded. As Hungary's főváros (main city or capital), it is the administrative, business and cultural centre; virtually everything in Hungary starts, finishes or is currently taking place here..

Straddling a curve in the Danube River (Duna), Budapest is flanked by the Buda Hills on the western bank and what is essentially the start of the Great Plain to the east. And the human legacy is just as remarkable as Mother Nature's. Architecturally, Budapest is a gem, with a surfeit of baroque, neoclassical, Eclectic and Art-Nouveau (or Secessionist) buildings.
