SERVICE DRIVEN

FLEXIBLE

Project and Breakbulk Cargo

We plan and execute the most demanding moves!

As project forwarders we undertake feasibility studies, plan, coordinate and implement the domestic and international movement of outsized- and special cargo.

Heavy lifts, long lengths, time volume and turnkey contracts are supported with export packing and warehousing nationwide.

We undertake site and route surveys, produce method statements and liaise with relevant parties. We fully coordinate all shipments via air, land and sea, including regularly scheduled service and/or chartering.

We are specialized in assisting our clients in complete factories relocation, extensions of existing plants and spare part deliveries.

In the last years we have moved parts for oil and gas plants, chemical plants, mines, fertilizer plants, automotive plants,...

Our goal is to offer a high level of service towards our clients in a niche where a lot of skills and knowledge are of the utmost importance.

Reporting/photos in the port are just a few of the very important things we effect for our clients who are mainly abroad and have no personal overview of their cargo.

Great voyages start here!

We at Antwerp Global Shipping believe that logistics in today's globalized economy are no longer 'just logistics'. As a neutral forwarder, we are not tied to specific ocean carriers, we balance our network and leverage our hard won & valued relationships to provide you with the most flexible ocean options in the industry.

Flat racks are especially suitable for heavy loads and cargo that needs loading from the top or sides, such as pipes and machinery. We optimize your request and prepare your cargo for shipment on fast, reliable and regular liner vessels.

WORLD- WIDE FOLLOW UP

Smart Cargo Handling, Warehousing, Storage and Terminal Operations

Our team is experienced and trained to optimize the best and safest way to ship your cargo. Shipping as breakbulk, in container or on special equipment, we investigate the best option for you.

We offer storage and handling facilities not only within the port area, but also in Antwerp surrounding areas to avoid heavy traffic and 'lean and green' delivery by train/barge to the outgoing terminal.

Although our offices being located at the center of Antwerp, close to the shipping lines offices, we are within 15 minute time frame on each outgoing terminal

Additional services

Delivery unlimited!

Power beyond cargo. We can take care of the obliged paperwork, like customs formalities, certificates, waivers and inspections.

You want us to survey your loading at the site, in the port, or even before buying?

We can do it!

Any special request, anything 'different and unusual', do ask '**Antwerp Global Shipping**'.
