Mission

In a dynamic interaction between customers, employees and highly specialized systems, we deliver individually tailored, flexible and productive transport solutions by land, sea, and air.

Our committed employees show innovative thinking and appreciate customers as well as partners who dare to make demands that challenge us.

We wish to create an atmosphere in which people thrive and where employees, customers and partners seek to in order to become part of the success.

Vision

We want to be recognized as the most flexible and reliable all-round supplier of logistics services and transports in the countries where we are active.

Concept

Through credibility as well as flexible and efficient IT, transport and logistic solutions, we want to create growth in value for FREJA, our customers and partners.

OUR SERVICES

02.

Quality, honesty, liability, and flexibility have been our guidelines for the company and the employees since the very beginning. To be able to hold on to those values while the company grows, our own FREJA Leadership Academy offers significant education in leadership, transport and logistics and ensures that our original values prepare the company for all future challenges.

Attitude is a small thing that makes a big difference
