

AL DHOW
LOGISTICS

Al-Dhow Logistics offers comprehensive supply chain management services for customers and projects of all sizes.

The profound experience of our Management Team, along with our commitment to innovation, adaptation and deep understanding of each industry's business model, allows to delivering the most efficient and effective solutions.

Furthermore, our appreciation of the revolutionary effect of technology on logistics and delivery systems drive our continued commitment to remain at the forefront of the newest technological solutions, whilst still maintaining our focus on optimizing and simplifying our customers supply chain management. This integrated approach positions us today as the partner of choice of many leading brands and corporations.

WE PROMISE INNOVATION

We aspire to insistently advance and proactively adapt to the on-going market evolution, thereby extending our lead in bringing forward sustainable ideas that serve as innovation drivers to our community.

WE PROMISE PERFORMANCE

Our proficiency is defined by our unceasing commitment towards setting the local industry bar. Using methodical and precise processes in all our dealings and projects, we strive to develop integrated solutions that facilitate and enhance our clients' performance and dynamics.

WE PROMISE SUSTAINABILITY

We create long term value by fostering high ethical standards across all our businesses and managing current and future economic, environmental and social opportunities and risks.

A timeline graphic set against a light gray world map background. The timeline consists of four circular nodes connected by dashed lines. Each node contains a year in bold blue text. Dotted lines connect each year node to a corresponding text block describing a milestone. The milestones are: 2017 (founding of Al-Dhow Logistics.CO), 2019 (launching 3PL warehousing), 2022 (expanding with a 10,000m² warehouse in Kuwait), and 2027 (expanding 3PL presence in Iraq, Saudi Arabia, and Egypt).

2017

Al-Dhow Logistics.CO For Transportation was founded with a focus on freight operation and transportation, with the goal of launching 3PL warehousing services.

2019

Following the success in freight operations and transportation, we launched our first 5K 3PL warehousing operation.

2022

We expanded our 3PL services with state of the art 10,000m² warehouse in Kuwait

2027

We will concentrate on expanding the 3PL presence in the region targeting Iraq, Saudi Arabia, and Egypt.
